

## KS3 Art Homework

The purpose of homework in Art at KS3 is to widen students' general knowledge and understanding of art history, artists and to increase their culture capital. This in turn will support the creativity process in lesson time where students will be creating more original and well informed artworks.

In years 7 & 8 students will develop an understanding of a number of key art movements in history using a variety of resources and different quizzing apps. In year 9, students will study art genres and practices that are explicitly linked to the work they are completing in class. This way of working will support students in preparing for project work in KS4. All year groups will also build up a bank of visual flashcards that can be used for knowledge retrieval tasks in lesson time.
